

## FUTURENTO TRAINING CENTER RULES

1. Make a team of 4 people.
2. Create your team name and report it to the Recruitment Center reception.
3. You will get a specially crafted phone that is password-encrypted. This phone will be paired with your ID code and will serve as your identifier throughout your training. It will open the door to which you have access. Add points to which you are entitled, that is, if you properly perform the task of your faction.
4. Next you receive 4 vests of different colors at the reception. Take them to the placement rooms with you.
5. In the placement rooms, watch the video and enter the correct combination on your phone to initiate the placement psycho-test.
6. Go through the placement psycho-test and then take the multicolored vests as a result. Get involved with each other to shine the color of the faction your psycho-test has given you.
7. Leave the box in the direction of the training center.
8. Collect tags (stickers marked with your faction's color). To collect tags, place the phone on top of the marked location. If the points are loaded properly, you will hear a beep.
9. Each group has the task of meeting as many % of their faction as possible.
10. The team must complete at least 75% to create a new colony. These 75% must contain at least 15% of each faction.
11. You can repeat tasks as many times as you like. Already loaded tags become inactive and you return to the task only to collect the rest.
12. Regularly check your phone, we will communicate with you.
13. You have 180 minutes to prove that you are worthy of being part of the new world.

If you succeed, we'll see you at the end. If not, ...

Welcome to our training center. Playing for Your Future Begins!
